

## Millionaire's Club Photo Tips

*To get a better man, you need a better photo*

In order to get a better man you need a better photo. Professional photos is where woman look their most attractive and our millionaires expect the best that is why affluent men do not relate to snap shots or low quality photos.

To find a photographer in your area, log on to [www.millionairesclub123.com](http://www.millionairesclub123.com) and go to the photographer's page [here](#). If you can't find a photographer in your local area please log on to [Google](#) and search for words "Swimsuit Photographer" and several qualified photographers should come up in your city. There is also a online dating photography site, called [LookBetterOnline.com](http://LookBetterOnline.com) which can direct you to a photographer in your area.

Once you have picked your photographer, here are some guidelines for you to use in order to have a successful shoot:

### 1. The studio must be inside

No outside shots due to bad lighting highlight wrinkles and imperfections. There must be amazing lighting to enhance your natural beauty. Remember, we are looking for **model quality photos** however; you do not have to be a model to get great shots.

### 2. Your makeup must be impeccable

Flawless skin where your eyes are a stand out. In order to achieve this look you must use a photographer that uses soft diffused lighting (the photographer will light the set with 2 to 4 lights to get a magazine quality look) it is called key lighting. Please make sure you ask your photographer that he/she uses this type of lighting below or you will not like your photos once you receive them, reshoots are very costly.

- A) Main/Key light
- B) Fill (for shadows and balance)
- C) Hair light
- D) Backdrop light

You should get your makeup done by a professional makeup artist (who does makeup on a regular basis for print magazines) as part of the photo package; make sure that the makeup artist gives you that natural “girl-next-door” glow with glossy/pouty lips.

### 3. Check Your Photos

Most photographers today are using digital cameras as they can show you what you look like at the time of the shoot and can correct any lighting or positioning problem. A good photographer will take a Polaroid in the beginning of the shoot to see if the lighting is correct and then switch over to digital. These generally are the best photographers out there as they work fast, are using the latest equipment and they can e-mail your photos to you once they are completed.

### 4. Have Photos Edited

In order for your photos to look flawless ask your photographer at his/her portfolio review to include Adobe Photoshop (a re-touching tool that major magazines use to touch up their models) in the price. If they do not use it, do not use that photographer as they may not be qualified to do your shoot. Adobe Photoshop is costly and many photographers do not include it in the price. It is worth it to pay the extra fee to get this done.

Here are some examples of the type of photos MC looks for. The women in these photos ages range from 20 to 50 and because the photographers did such a great job I bet you can't tell whose age belongs to whose photo.

### 5. Straight Hair

Hair blown out straight and flat ironed to look youthful and young is a must. Make sure your hair is blown-dry straight by a professional hairstylist (men generally prefer straight hair to curly hair). If you have curly hair, or hair that is extremely unruly, we recommend that your professional hairstylist use a flat iron on the ends. Thermal reconditioning, the new Japanese type straightening method, is

win win situation if you prefer the straight look with less maintenance. A bit costly, but definitely worth it. Ask your professional hair stylist about it. If you have short hair we recommend growing it out to a sexy length that moves or adding on the new extension system that so many celebrities are using. It is through MC's experience that millionaire men love long hair so they can run their fingers through it. Throughout history this has been a sign of beauty. The photographer's make-up artist is not obligated to do your hair, but will often assist you to make it look better. It is best to get your hair done right before the shoot and the make-up artist will do the touch ups on the set.

### 6. A woman's smile is her calling card.

The best way to show it off is to get your teeth bleached. If you can't afford a professional bleaching session by your dentist, MC suggest getting "Crest White Strips" at your local drug store. Try to avoid tea, coffee, soda, red wine and any other staining beverage that may discolor your teeth before your shoot.

### 7. Smile for all Photos

Make sure that the bulk of your photos show you SMILING (this is very, very important --- it can ultimately make the difference in you being set up on dates or not....men prefer the girl next door look. Think ASHLEY JUDD, KATE HUDSON and JESSICA SIMPSON for example, not COURTNEY LOVE), and that you receive headshots as well as body shots as part of the photo package. Make sure your photographer shoots you in flattering angles as opposed to yoga/exercise stances, weird positions, and artsy poses etc.

### 8. Color Photos

Your photos must be in color but black and white photos are welcome in addition.

## Outfits

Please bring three 2-3 changes of clothes in solid bright colors. These should include one each of the following: solid crop-top/t-shirt, solid pair of low waisted jeans; short, black, sexy dress; and optional a 2 piece bathing suit. Please no suits or business attire. No sunglasses.

## First Outfit

One solid color t-shirt (no trimmings on the shirt, otherwise it will look dated)...cute, sexy, cleavage showing, belly bearing (only if you have a well toned Madonna stomach)

Low wasted solid jeans that fit well (no trimmings on the jeans, otherwise they will look dated)

## Second Outfit

Short solid black fitted dress and high heels to match. The color black is always a winner if you want to look thinner.

## Third Outfit

Only if you are in model/swim suit shape. 2 piece swim suit solid color, so it does not look dated, flattering triangle tops if possible. One pieces are not acceptable.

Any photos of nudity or inappropriate shots will not be accepted. We will not tolerate pornography. Lingerie and bathing suits are acceptable, but the poses must be tasteful and you must be covered in genital area.

The photos must be of you and you alone. No one else may be in the photo that includes animals, ex- boyfriends, cars, etc.

Make sure that the bulk of your photos are of you smiling --- this is very important, as men would rather see a woman smiling than not. If you aren't smiling, you'll appear distant and unapproachable. Therefore you will not get picked for a date.

Remember "Love is always in the air" so have fun with your shoot.
